Topic

**"Parent-Teacher-Student Conferences - working together
towards a common goal."**

Parents and teachers alike have mixed feelings when it comes to the conference. The stress on both sides of the table usually limits the productivity, impact on student achievement and an effective teacher-parent partnership. In this workshop, teachers will be introduced to Student-Led conferences as a remedy for the shortcomings of traditional Parent-Teacher conferences. An overall vision, plan and resources will be shared for creating an experience that, like the classroom, is centered on the student and where the student is in charge of conveying progress with evidence as well as a plan for continuous improvement.
