

Hot Topics from the Preschool Yard

Children are exposed to images of life that are confusing and inappropriate for them. Sexual language, provocative dress and violent behavior are displayed on a regular basis in our media and in our lives. How does this exposure effect young children? What should be the response of the adults who guide these children? This workshop will discuss the typical and expected sexual and gender role exploration, weapon and superhero play, and provocative language and behavior we see in young children.
